

ASPHALT & BITUMEN

Core Drilling Machine

Machine is designed to cut cores up to 150 mm diameter from concrete, asphalt and similar hard construction materials.

The machine comprises a vertical support column which carries the drill head/motor assembly. The motor assembly comprises a 6.5 Hp petrol engine.

A ball screw mechanism enables close control of the drilling pressure and rapid return when drilling is completed.

A water spraying assembly is mounted on the machine.

The complete assembly is supplied on a rigid wheel mounted metal base frame with leveling and fixing facility during the operation.
